Course Title: An Introduction to Anatomy at the Stanford School of Medicine  
Course Code: WSP 21  
Instructor: Bruce Fogel and Sakti Srivastava

Course Summary:  
In this hands-on workshop, students will explore the latest digital technologies that medical students use to prepare for a future in the health sciences. Students will learn how to identify anatomical structures on human cadavers and common clinical conditions affecting the thigh, leg, ankle and foot (lower limb), and observe surgical procedures on cadavers to correct these conditions.

*Please see course page for full description and additional details.

Grade Options and Requirements:  
• No Grade Requested (NGR)  
  o Due to its short format, this workshop may not be taken for Credit or a Letter Grade. No work will be required; no credit shall be received; no proof of attendance can be provided.

Tentative Outline:  
The workshop schedule will be dispensed at the class and includes the time allotments for interacting with the various resources, lunch, and observing the surgical procedures.
