LEARNING OUTCOMES

After completion of this course, the learner will:

- Understand some of the major legal concerns affecting the cybersecurity environment, including modern issues such as Cloud Computing, Mobile Security, Social Media, Software and Systems Security, Web Security, Intellectual Property etc.

- Be able to recognizing major cybersecurity legal challenges and raise concerns

- Compare, on a high level, the major cybersecurity laws and cases in the covered jurisdictions

- Examine cases of effective and harmful actions relating to cybersecurity breaches by organizations in the recent past, and understand how organizations should respond, legally, in a breach situation.
CLASSROOM LEARNING TECHNIQUES

A combination of discussion, lectures, short assignments, and/or additional methods may be employed. Participants will have an opportunity to engage in or witness a lively Mock Trial.
